DAVID NAFTZGER
Executive Director

On behalf of the Governors of the eight Great Lakes States, thank you for your work with us to protect and restore the Great Lakes. Our efforts have resulted in notable progress to protect and restore 20% of the world's surface freshwater. The Great Lakes Restoration Initiative (GLRI), in particular, has served as an important tool in our collective efforts to protect this incredible natural resource. We applaud your efforts to reauthorize the GLRI beyond its current FY 26 authorization and to increase the authorization.

Working together, the Great Lakes Governors have provided an important leadership role on Great Lakes restoration and protection. In 2003, the Great Lakes Governors came together to identify nine priorities for Great Lakes restoration and protection, which served as the organizing principle of the [Great Lakes Regional Collaboration Strategy](#) for restoring and protecting the Great Lakes. The Strategy in turn served as the impetus for the GLRI which each of our States have used to advance these priorities. We have made significant progress through the GLRI but it is only with sustained, consistent funding that we can build on past achievements and ensure the long-term success of protecting and restoring the Great Lakes.

We commend and support your efforts to extend the authorization of the GLRI and increase its authorization. We look forward to continuing our work together to protect and restore the Great Lakes.

Sincerely,

Gretchen Whitmer
Chair, Council of Great Lakes Governors
Governor of Michigan
